

Spaltenindex

Zeilenindex

→ [0][0]	[0][1]	[0][2]	[0][3]
[1][0]	[1][1]	[1][2]	[1][3]
[2][0]	[2][1]	[2][2]	[2][3]

The diagram illustrates a 3x4 array structure. A horizontal arrow labeled 'Zeilenindex' (Row Index) points to the first column of the array. A vertical arrow labeled 'Spaltenindex' (Column Index) points to the first row of the array. The array is represented as a table with three rows and four columns. Each cell in the table contains a pair of indices in the format [row][column]. The first row contains [0][0], [0][1], [0][2], and [0][3]. The second row contains [1][0], [1][1], [1][2], and [1][3]. The third row contains [2][0], [2][1], [2][2], and [2][3].
